

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take Tablespoonful of Salts if Back Hurts or Bladder Bothers.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be particularly on guard against kidney troubles.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from overwork; they get sluggish; the eliminative tissues die, and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the urine has a peculiar odor, you should seek relief during the night when you have no business, nervous, and digly glycolic acid, uric acid, stomach, or rheumatism in bad weather, get four or five grains of salts about four o'clock of the day. Take a table spoonful in a glass of water before breakfast, and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate, clogged kidneys to neutralize the acids in the urine so it is no longer a source of irritation, thus ending urinary and bladder troubles.

Bad Salts is inexpensive and cannot injure. It makes a magnificent effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

Lieut. John Palmer Post, who was expected to be home here about the 10th of the month on a short leave of absence, has not yet been able to get away from Camp Jackson, S. C.

REPORTS OF LINES

Supt. E. J. Graham made a report on Tuesday night at a meeting of the school board.

The school board has decided to hold a meeting at the town hall on Americanization work and various other lines of work that are being carried on at the school at the present time.

He stated that H. H. Wheaton of Hartford had been here during the past week and plans were in preparation for taking care of this Americanization work. It is too accomplished largely in connection with manufacturing establishments employing foreign speaking help and a committee of the foreign nationalities of the town is being formed to carry on the work.

In the night schools the regular night school instruction is being continued. The evening school has two classes of 10 pupils each on the average. The newly established school at Greenville has an average attendance of 15, and the school at Taftville has two classes with 10 attending.

The first work allotted to the Junior Red Cross in the schools is 50 comfort kits and these have been turned to the Broadway school to do. As further calls come they will be given out to other schools.

The aggregate of the fund for fatherless children of France is about \$470, and reports are made that the school children are responding well on the Victory boys and girls' work in the united work campaign.

One new teacher, Miss Harriet G. Adams, was appointed at the meeting. She will serve in one of the highest grades. At present the school has not been definitely determined yet.

The board decided to have a full value appraisal of the school property for insurance purposes. The appraisal will be done by experts from Hartford.

SUBSCRIBE \$15,400 FOR MILK PLANT

At a special meeting of the milk producers of Norwich and surrounding towns held Tuesday evening in Buckingham hall, the plan for the proposed organization of a milk cooperative corporation for the pasteurizing of milk, \$15,400 was subscribed in stock of the corporation by thirty-three stockholders. There must be at least \$40,000 to be established in the plan, the organization committee will be busy the next few days securing subscriptions among the various local producers.

There were about 75 present at the meeting which was presided over by County Agent E. C. Warner. The minutes of the last meeting were read and approved. It was decided on Dr. A. W. Farrington of the Sanitary Commission now in this country to tell what will be the effect of peace on the pasteurization of milk and the regulation of the milk industry.

Dr. Farrington said that regulations would certainly go into effect about October 1, 1919, and that the milk industry would be a result of the war. He said that the milk industry would be a result of the war.
